SPECIAL NOTICE LETTER
URGENT LEGAL MATTER
PROMPT REPLY NECESSARY
CERTIFIED MAIL: RETURN RECEIPT REOUESTED

John Vincent Faraci Chairman and CEO International Paper Company 6400 Poplar Avenue Memphis, TN 38197

Re:

Special Notice Letter for the Smurfit Stone Mill Site

Missoula, Missoula County, Montana

Dear Mr. Faraci:

This letter follows the general notice letter that the U.S. Environmental Protection Agency (EPA) sent to the International Paper Company on May 2, 2014, in connection with the Smurfit Stone Mill Site (Site), located near Missoula, Montana. In that letter, the EPA notified the International Paper Company of its potential responsibility under Section 107(a) of the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA" or "Superfund"), 42 U.S.C. § 9607(a) for the cleanup of the Site, including all costs incurred by the EPA in responding to releases at the Site. The EPA is now contacting the International Paper Company in an attempt to resolve its responsibility at the Site.

#### Background

Based on an extensive review of records related to the release and/or disposal of hazardous substances at the Site, the EPA identified the International Paper Company as a potentially responsible party (PRP) that contributed hazardous substances to the Site. Under the federal Superfund law, the International Paper Company and the other PRPs at the Site are responsible for the costs of cleaning up the Site. The EPA has plans to perform a remedial investigation and feasibility study (RI/FS) at the Site in order to identify locations where hazardous waste is located. The final RI/FS report will identify various response actions needed to address hazardous waste at the Site.

#### **Special Notice and Negotiation Moratorium**

The EPA has determined that use of the special notice procedures set forth in Section 122(e) of CERCLA, 42 U.S.C. § 9622(e) may facilitate a settlement between the International Paper Company, the other PRPs, and the EPA for performance of a RI/FS at the Site. A remedial investigation (RI) identifies site characteristics and defines the nature and extent of soil, air, surface water and groundwater contamination at the Site and the risks posed by the Site. A feasibility study (FS) evaluates different clean-up options for the Site.

Under Section 122(e), this letter triggers a sixty (60)-day moratorium on certain EPA response activities at the Site. During this 60-day period, the International Paper Company and the other PRPs are invited to participate in formal negotiations with the EPA in an effort to reach a settlement to conduct or finance the RI/FS. The 60-day negotiation period ends 60 days after receipt of this letter. The 60-day negotiation moratorium will be extended for an additional thirty (30) days if PRPs provide the EPA with a "good faith offer" to conduct or finance the RI/FS. Under this 90-day negotiation moratorium, negotiations will conclude on 90 days after receipt of this letter. If settlement is reached between the EPA and the PRPs within the 90-day negotiation moratorium, the settlement will be embodied in an administrative order on consent (AOC) for RI/FS.

#### **Good Faith Offer**

A proposed AOC and Statement of Work (SOW) is enclosed to assist the International Paper Company in developing a "good faith offer." As indicated, the 60-day negotiation moratorium triggered by this letter is extended for 30 days if the PRPs submit a "good faith offer" to the EPA. A "good faith offer" to conduct or finance the RI/FS is a written proposal that demonstrates the PRPs' qualifications and willingness to conduct or finance the RI/FS and includes the following elements:

A statement of willingness by the PRPs to conduct or finance an RI/FS that is consistent with EPA's Statement of Work and draft AOC and provides a sufficient basis for further negotiations;

A paragraph-by-paragraph response to the EPA's Statement of Work and draft AOC;

A detailed description of the work plan identifying how the PRPs plan to proceed;

A demonstration of the PRPs' technical capability to carry out the RI/FS, including the identification of the firm(s) that may actually conduct the work or a description of the process they will use to select the firm(s);

A demonstration of the PRPs' capability to finance the RI/FS;

A statement of willingness by the PRPs to reimburse the EPA for costs incurred in overseeing the PRPs' conduct of the RI/FS; and

The name, address, and phone number of the party(ies) or steering committee member(s) who will represent the PRPs in negotiations.

#### **Demand for Reimbursement of Costs**

With this letter, the EPA demands that you reimburse the EPA for its costs incurred to date, and encourages you to voluntarily negotiate an AOC in which the International Paper Company and other PRPs agree to perform the RI/FS.

In accordance with Section 104 of CERCLA, 42 U.S.C. § 9604, the EPA has already taken certain response actions and incurred certain costs in response to conditions at the Site. These response actions include site investigations and a removal assessment at the Site under the authority of the Superfund Program. On August 20, 2012, the EPA produced an "Analytical Results Report for a Combined Site Inspection and Removal Assessment" for the Site. Field work and sampling activities were conducted on surface and subsurface soil and sediment and on surface water and groundwater.

The EPA is seeking to recover from the International Paper Company and other PRPs at the Site, its response costs and all the interest authorized to be recovered under Section 107(a) of CERCLA. To date, the response costs for the Site (from 10/01/1980-03/31/2013) are approximately \$673,809.

Under Section 107(a) of CERCLA, the EPA hereby makes a demand for payment from the International Paper Company and other PRPs for the above amount plus all interest authorized to be recovered under Section 107(a). A summary of these costs is enclosed as Attachment A.

Some or all of the costs associated with this notice may be covered by current or past insurance policies issued to the International Paper Company. Most insurance policies will require that the company notify its carrier(s) of a claim against it in a timely manner. To evaluate whether the International Paper Company should notify its insurance carrier(s) of this demand, the International Paper Company may wish to review current and past policies, beginning with the date of International Paper Company's first contact with the Smurfit Stone Mill Site, up to the present. Coverage depends on many factors, such as the language of the particular policy and state law.

In the event that the International Paper Company files for protection in a bankruptcy court, it must include the EPA as creditor, because the EPA has a potential claim against the International Paper Company. The EPA reserves the right to file a proof of claim or application for reimbursement of administrative expenses.

#### **PRP Steering Committee**

To assist PRPs in negotiating with the EPA concerning this matter, the EPA is attaching to this letter a list of the names and addresses of other PRPs to whom it is sending this Notice.

The EPA recommends that all PRPs meet to select a steering committee responsible for representing the group's interests. The EPA recognizes that the allocation of responsibility among PRPs may be difficult. If PRPs are unable to reach consensus among themselves, we encourage the use of the services of a neutral third party to help allocate responsibility. Third parties are available to facilitate negotiations. At the PRPs' request, the EPA will provide a list of experienced third-party mediators, or help arrange for a mediator.

#### **Administrative Record**

The documentation supporting the proposal to list the Site on the National Priorities List is available at the Missoula Public Library, 301 E. Main Street, Missoula, Montana 59802. In addition, the EPA will establish an administrative record that contains documents that will serve as the basis for the EPA's selection of a cleanup at the Site. The administrative record will be located at the Missoula Public Library. The administrative record will be available to you and the public for inspection and comment. The administrative record will also be available upon appointment at the Superfund Records Center, EPA Region 8, at 1595 Wynkoop Street, Denver, Colorado 80202. The International Paper Company may wish to review the documents to assist in responding to this letter, but its review should not delay such response beyond the 60-day period provided by CERCLA.

#### PRP Response and EPA Contact Person

The International Paper Company is encouraged to contact the EPA, within 10 days of its receipt of this letter, to indicate its willingness to participate in future negotiations concerning this Site. You may respond individually or through a steering committee if such a committee has been formed. If the EPA does not receive a timely response, the EPA will assume that you do not wish to negotiate a resolution of your liabilities in connection with the Site, and that you have declined any involvement in performing the response activities.

Your response to this Special Notice Letter and the demand for costs included herein, including written proposals to perform the RI/FS for the Site, should be sent to:

U.S. Environmental Protection Agency Amelia Piggott, Enforcement Attorney (8ENF-L) 1595 Wynkoop Street Denver, CO 80202 piggott.amelia@epa.gov 303-312-6410

The factual and legal discussions in this letter are intended solely to provide notice and information, and such discussions are not to be construed as a final EPA position on any matter set forth herein. Due to the seriousness of the environmental and legal problems posed by the conditions at the Site, the EPA urges that you give immediate attention and prompt response to this letter.

In addition, the EPA has notified the Federal and State Natural Resource Trustees of its intention to perform or enter into negotiations for the performance of response actions at the Site.

If you have any questions regarding the technical aspects of this letter, please contact Sara Sparks, Remedial Project Manager, at 406-782-7415. If you have an attorney handling your legal matters, please direct his or her questions to Amelia Piggott, Enforcement Attorney, at 303-312-6410.

We and our staff look forward to working with you during the coming months.

Sincerely,

Signature pg. inadvertantly not copied from original.
